Pseudo-Lucian is the modern scholarly designation for the anonymous author or authors of works spuriously attributed to the 2nd-century satirist Lucian of Samosata. These texts originate from the broader era of the Second Sophistic, a period of revived Greek rhetoric and Atticizing style under Roman rule. The authors were likely imitators or contemporaries working within Lucian's literary tradition.

The corpus includes numerous doubtful works, such as **Amores**, a discourse on love and gender; **Cynicus**, a dialogue defending Cynicism; **Philopatris**, a later dialogue with Christian allusions; **Halcyon**, on the myth of the halcyon; and **Podagra**, a comic tragedy about gout. Other spurious works include **Demosthenis Encomium**, **Charidemus**, **Nero**, **Epigrammata**, and **Ocypus**.

The significance of the Pseudo-Lucianic corpus lies in demonstrating Lucian's posthumous influence and the practice of literary imitation in antiquity. It preserves texts reflecting the philosophical, rhetorical, and social themes of the Roman Empire, with individual works serving as important sources for studies on ancient sexuality, philosophy, and early Christian-pagan interactions.
